

Network Engineer (NW11330)

Sydney, New South Wales, Australia (Hybrid)

ASX: Powering Australia's financial markets

Why join the ASX?

When you join ASX, you're joining a company with a strong purpose – to power a stronger economic future by enabling a fair and dynamic marketplace for all.

In your new role, you'll be part of a leading global securities exchange with a strong brand. We are known for being a trusted market operator and an exciting data hub.

Want to know why we are a great place to work, visit our [careers page](#) to learn more.

We are more than a securities exchange!

The ASX team brings together talented people from a diverse range of disciplines.

We run critical market infrastructure, with 1 in 3 people employed within technology. Yet we have a unique complexity of roles across a range of disciplines such as operations, program delivery, financial products, investor engagement, risk and compliance.

We're proud of the diversity of our organisation and the culture of inclusion that all our people help to build every day. Our employee-led groups are known for celebrating cultural and religious events, championing LGBTIQ+ inclusion, inspiring giving and volunteering, promoting gender equality, and wellbeing. We are an Employer of Choice for Gender Equality (WGEA) and a member of the Champions of Change Coalition for the advancement of gender equality in Australia.

About the team:

The role is a key part of the Network Technology Team who are continually shaping and developing how we facilitate and support the core and customer network for the ASX.

The Network Technology Team are responsible for delivery of high quality, reliable and secured network connectivity for the ASX.

Looking after the Data centre network, Internet environments, Network security and service provider network infrastructure.

What you will be doing:

- Support ASX core network, including Datacentre Network, Internet, Office, Service Provider Network, Network Monitoring and Security. Contributing to procedural documentation and knowledge base as required.

- Responding to incoming support incidents in a timely manner. Resolve incidents, problems and change requests to required service level targets.
- Manage time in a manner to ensure all tasks are completed within specified time frames Operate within ITIL service management processes including incident, problem and change management.
- Uphold and adhere to ASX's core values, guidelines, policies and procedures . Contribute to the design and implementation of projects
- Liaise between the customer, stakeholders and infrastructure to provide innovative solutions for ASX Customers (internal and external).
- Management of Network Infrastructure including Monitoring and Capacity Planning.
- Assist in the deployment of networks to support ASX and backend projects
- Improve on proactivity and ensure all of processes are being reviewed to ensure efficiency

What you will bring:

- Solid Experience in Arista Switching/Wireless ,Cisco and Cumulus networking technologies
- EVPN, VRF, MPLS, NAT, QoS and VPN knowledge
- Experience working on network routing technologies (Static/RIP/OSPF/BGP)
- Experience in delivering and supporting large scale networks
- Experience working on F5 technologies (LTM, GTM, APM and ASM). Design, support and upgrade of F5 physical and virtual devices.
- Experience working on Palo Alto Security technologies. Design, support and upgrade of Palo Alto network firewall devices.
- Influenced and negotiated with stakeholders to achieve the best outcomes
- Directly interfaced with non-technical customers
- Experience working with and maintaining mission critical networks . Worked with monitoring tools and developed metrics for network availability

Nice to have:

- Tertiary degree in computer science/engineering/telecommunications.
- Vendor certifications CCNP / CCIE, F5, Palo Alto etc.
- Knowledge and support of operating systems – Windows / Linux
- Scripting skills . Network monitoring . Mentoring team members.

We make hiring decisions based on your skills, capabilities and experience, and how you'll help us to live our values. We encourage you to apply even if you don't meet all the criteria of this role. If you need any adjustments during the application or interview process to help you present your best self, please let us know.

At ASX Group, our diverse workforce is essential to build and maintain a fair and dynamic marketplace. We support flexible working and offer hybrid working options. Even if our roles are advertised as full-time, we encourage you to apply if you are interested in part-time or other flexible working arrangements.

We will arrange for successful candidates to have background checks, including reference and police checks completed as part of the on-boarding process.

Recruitment Agencies: ASX does not accept any unsolicited agency resumes and will not be responsible for any fees related to unsolicited resumes.
