

# Technical Release Manager

Sydney, New South Wales, Australia (Hybrid)

## ASX: Powering Australia's financial markets

### Why join the ASX?

When you join ASX, you're joining a company with a strong purpose – to power a stronger economic future by enabling a fair and dynamic marketplace for all.

In your new role, you'll be part of a leading global securities exchange with a strong brand. We are known for being a trusted market operator and an exciting data hub.

Want to know why we are a great place to work, visit our [careers page](#) to learn more.

### We are more than a securities exchange!

The ASX team brings together talented people from a diverse range of disciplines.

We run critical market infrastructure, with 1 in 3 people employed within technology. Yet we have a unique complexity of roles across a range of disciplines such as operations, program delivery, financial products, investor engagement, risk and compliance.

We're proud of the diversity of our organisation and the culture of inclusion that all our people help to build every day. Our employee-led groups are known for celebrating cultural and religious events, championing LGBTIQ+ inclusion, inspiring giving and volunteering, promoting gender equality, and wellbeing. We are an Employer of Choice for Gender Equality (WGEA) and a member of the Champions of Change Coalition for the advancement of gender equality in Australia.

### About the team:

Develop and govern enterprise continuous delivery platform capabilities aligned with approved Target Architectures.

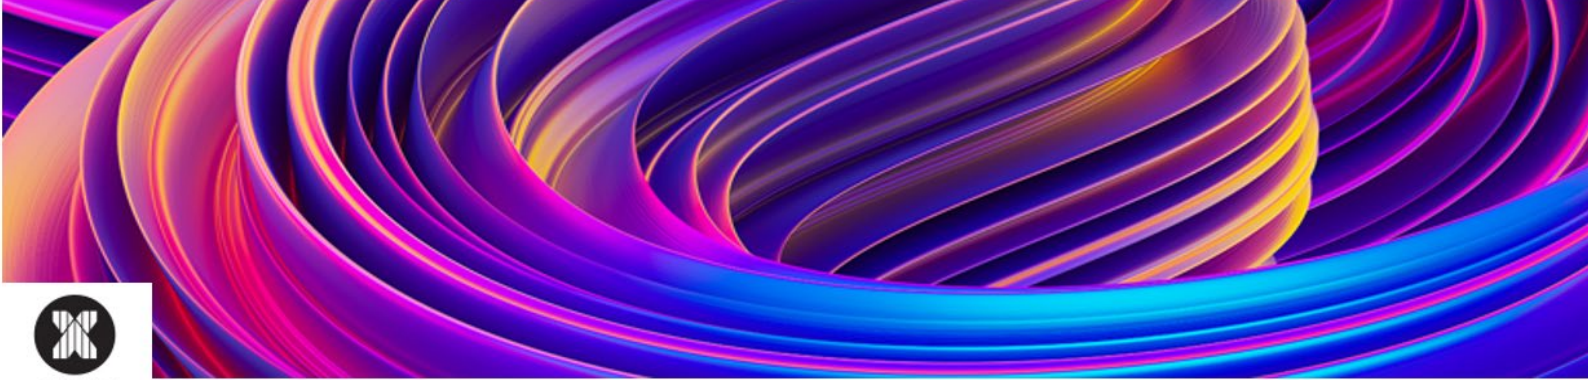

The Solution Engineering team combines technical expertise and innovative problem-solving to design, deploy and implement effective solutions to support business teams and projects for all Lines of Business (LoB) across the ASX.

You would be working closely with technical, Testing and Architecture teams as well as our Lines of Business on the design and implementation of our Continuous Integration Platform to support our project delivery across ASX.

You are a practitioner/team member of the Solution Engineering Capability Community of Practice (CoP)

- Experience with the Software Development Lifecycle, continuous delivery/continuous integration (CI/CD) principals, and DevOps toolsets.
- Experience with software version control, branching strategy and dependency management.
- Help streamline the release strategy for the Engineering group, building towards an single monthly release for the team.
- Collaborate with stakeholders across Architecture, Information Security, Finance, Risk, Compliance, QE&T.
- Build out comprehensive KPIs, metrics, and SLAs to measure, performance and success rates of Releases,
- Manage knowledgebase of standards, training material, etc.
- Understand the regulatory environment and obligations required to run a Cloud Platform at the ASX with experience with compliance and audit requirements.
- Identify opportunities for cloud efficiency enhancements across the organization
- Experience in highly regulated financial environments.
- Worked in a cross-functional, agile delivery team
- Comfortable presenting at various forums and to senior stakeholders.

#### Nice to have:

- Strong stakeholder management, collaboration and leadership qualities.
- Strong sense of ownership, customer service and integrity demonstrated through clear communications.
- Passionate about Release Engineering
- Understand challenges and trade-offs building, deploying, and running solutions in different environments.
- Understanding of cloud-native frameworks and landscapes

We make hiring decisions based on your skills, capabilities and experience, and how you'll help us to live our values. We encourage you to apply even if you don't meet all the criteria of this role. If you need any adjustments during the application or interview process to help you present your best self, please let us know.

At ASX Group, our diverse workforce is essential to build and maintain a fair and dynamic marketplace. We support flexible working and offer hybrid working options. Even if our roles are advertised as full-time, we encourage you to apply if you are interested in part-time or other flexible working arrangements.

We will arrange for successful candidates to have background checks, including reference and police checks completed as part of the on-boarding process.
