## Your team

The Benchmarks business sits within the Product Management function of the Markets division. The team is comprised of product specialists across a number of different asset classes.

## Your responsibilities

- Ensure Benchmark Administration activities are conducted in alignment with ASX's Benchmarks license obligations.
- Identify opportunities to enhance existing Benchmarks and Rates products and services and deliver timely customer driven outcomes; drive the development on new Benchmarks and Rates products and services.
- Pro-active collaboration with the Distribution team to execute on account plans and industry engagement activities to successfully drive product development initiatives.
- Remain current with all global market trends in Benchmarks and interest rate derivative markets and identify commercial responses to these developments.
- Engagement with customer and intermediaries on opportunities and issue management.
- Engagement with regulators on Benchmark Administration matters.

## Your experience and qualifications

### Must have

- Trading, sales, product management or regulatory roles in financial markets with exposure to Rates/Benchmarks products.
- Gained a strong understanding of Australian and New Zealand Benchmarks and Rates products and services.
- A proven track record of getting product to market underpinned by sound project and product management practices.
- Data analytics experience; including an understanding of SQL and Python along with a data visualization tool.

### Nice to have

- Strong relationships among key stakeholders at interest rate market participants.
- Understanding of offshore derivative markets.
- Global derivative regulation knowledge.
- Experience in OTC Interest Rate Derivatives.
- Experience in other Fixed Income, Currency and Commodities and/or Equity derivative products would be well regarded.
