New accounting standard AASB 15 Revenue from Contracts with Customers effective 1 July 2018

- ASX has received guidance regarding the impact of adopting AASB 15 Revenue from Contracts with Customers on initial and subsequent listing fee revenue
- These fees were previously recognised on the date of admission or quotation of the shares
- Upon adoption of AASB 15, these listing fees are now deferred and recognised over the period in which it is estimated that the listing service will be provided
- ASX has determined that revenue will be deferred and recognised over the following periods - initial listing fees 5 years and subsequent listings fees 3 years

Key Points:

- Adoption of AASB 15 impacts the Listings and Issuer Services line only
- The table presents a view of the income statement for 1H18 on a reported and restated basis to provide like-for-like comparison
