CORRECTION TO 2023 FULL-YEAR RESULTS PRESENTATION SLIDES

ASX advises that an error appeared on page 47 of the 2023 Full-Year Results Presentation Slides released to the market on 17 August 2023.

The error relates to two of the line items demonstrating the changes to the ASX Group own cash reserves and short-term investments for FY23. The affected line items were:

- the "Net proceeds from borrowings" figure, which was incorrectly stated as (\$20) million; it should have been \$20 million; and
- the "Cash generated from business activities" figure, which was incorrectly stated as \$609.6m; it should have been \$569.6m.

The corrected and complete version of the 2023 Full-Year Results Presentation Slides is attached to this announcement.

For ease of reference, the portion of the table on page 47 that is affected by the errors is reproduced below with the corrected items underlined and the incorrect items in strikethrough.

Underlying EPS	253.7cps	(9.0cps)	(3.4%)
DPS	228.3cps	(8.1cps)	(3.4%)
Underlying ROE	13.4%	-	(0.3%)

Resilient operating revenue performance with growth in Listings and Technology and Data offset by decline in Markets and Securities and Payments

Expense increase driven by staff, equipment and administration costs, as well as CHESSE related review and associated costs and CHESSE replacement solution design costs.

Net interest income growth driven by higher interest rate on ASX Group cash

Derecognition of CHESSE replacement project main significant item impacting statutory NPAT

Dividend payout ratio of 90% of underlying NPAT

Underlying ROE down 0.3% to 13.4%

6 | Operating revenue as per the Group segment reporting. Variance relative to the prior comparative period (FY22 pcp) expressed favourable/(unfavourable).

¹Significant items represent CHESSE replacement project derecognition charge and associated costs, CHESSE Partnership Program costs and the reversal of Yieldbroker impairment.

Operating revenue down, reflecting growth in listings revenue and increased demand for information and technical services offset by weaker equity trading and securities and payments activity

Expense increase driven by staff, equipment and administration costs, as well as CHES replacement solution design and CHES related review and associated costs, partly offset by lower depreciation charge

Net interest income up 72.4% as net interest income on ASX Group cash benefited from increases in RBA cash rate

Significant items represent CHES replacement project derecognition charge and associate costs, CHES Replacement Partnership Program costs and the reversal of Yieldbroker impairment

Underlying NPAT and underlying EPS down 3.4% due to decline in operating revenue and increase in total expenses, partially offset by increase in net interest income

Underlying ROE down 0.3% to 13.4%

Single stock options volume (million)	58.3	60.2	(3.0%)
Total ASX on-market value (\$billion)	1,415.2	1,682.6	(15.9%)

Futures and OTC in line with pcp, with futures volumes up due to increased market volatility. Significant growth in the 30 and 90 day bank bills, partly offset by a decline in the 5 and 10 year bond products. Reduction in commodities (including electricity) from lower trading activity associated with elevated prices.

Cash market trading down, driven by lower ASX average on-market traded value, partly offset by higher Centre Point traded value and higher fees.

Strong performance in index options as investors continue to use these contracts as protection against elevated market volatility combined with an increase in retail activity, offset by lower single stock option volumes.

Technology and Data

Growing demand for market data and expansion of the ecosystem

	FY23	FY22	FY23 v FY22
Revenue (\$million)	240.8	221.9	8.5%

Key drivers (spot)			
ALC cabinets	390	386	1.0%
ALC service connections	1,346	1,287	4.6%

Information services increase driven by growing demand for equities and futures market data combined with an increase in index royalties

Technical services increase reflecting growth in customer infrastructure and connections at the ALC

Securities and Payments

Slowdown in cash markets activity impacting issuer and equity post-trade services

	FY23	FY22	FY23 v FY22
Revenue (\$million)	258.4	288.3	(10.4%)
Issuer services	61.1	78.5	(22.2%)
Equity post-trade services	134.8	153.1	(11.9%)
Austraclear (including Sympli)	62.5	56.7	10.2%
Key drivers			
On-market value cleared (\$billion)	1,495.5	1,767.9	(15.4%)
Austraclear holdings balance (\$billion)	3,068.4	2,915.6	5.2%

Issuer services impacted by new pricing model effective 1 July 2022; revenue decline primarily driven by fewer CHES holding statements issued due to lower listing, capital raising and market activity. Average HINs up 3.6% on pcp

Equity post-trade impacted by lower trading activity. No revenue share provisions have been raised

Austraclear (excluding Sympli) up 12.1% on pcp driven by higher bond issuances and increased transactional activity supported by higher interest rate environment. Increased share of operating losses relating to Sympli joint venture (\$14.8m vs \$12.4m in pcp)

FY23 ASX total expenses

Operating expense growth led by higher staff, equipment and administration costs

	FY23	FY22	FY23 v FY22
Staff ¹	198.6	171.7	(15.7%)
Occupancy	9.9	8.9	(11.3%)
Equipment	52.6	47.8	(10.0%)
Administration ¹	43.7	31.6	(38.3%)
Variable	12.2	15.5	21.2%
ASIC supervision levy	7.4	7.7	3.9%

Cash operating expenses	337.7	283.2	(19.3%)
Depreciation and amortisation	36.9	50.3	26.6%
Total expenses	374.6	333.5	(12.3%)
Headcount (spot)²	1,050	925	(13.5%)
Capital expenditure	98.7	105.2	(6.2%)

Staff expense growth reflects remuneration uplift, increased headcount and higher costs to support project initiatives, offset by lower restructuring costs.

Equipment uplift largely due to annual contract increase, growth in licensing and uplift in cloud hosted services to support key initiatives and projects.

Administration increase due to spend relating to investment in technology and risk management capabilities, higher insurance premiums and increased travel costs.

Variable decreased in line with lower CHESSE statement volumes.

CHESSE related expenses of \$13.3m consist of CHESSE review and associated costs and CHESSE replacement solution design costs.

Depreciation declined due to a number of assets reaching end of useful life.

FY23 ASX net interest income

ASX Group cash net income growth offset by subdued investment spread income

	FY23	FY22	FY23 v FY22
Net interest income on ASX Group cash	32.6	(0.6)	Lge
Lease financing cost	(2.6)	(2.9)	(10.3%)
Group net interest income	30.0	(3.5)	Lge
Net interest on collateral balances	40.8	44.6	(8.4%)
Total net interest income	70.8	41.1	72.4%

Drivers of total net interest income:

- Net interest income on ASX Group cash (average balance of \$1.2bn) driven by increases to RBA cash rate, net of lease financing cost
- Returns on average collateral balances (FY23: \$11.9bn):
 - Fall in interest income due to a decrease in collateral balances that are subject to a risk management haircut¹
 - Average investment spread, earned on cash balances, remained at 10bps, consistent with FY22
 - Ongoing subdued investment spreads due to significant excess cash in the financial system – may not change for ~12 months

Net interest income per segment reporting. Variance expressed favourable/(unfavourable).

Total expenses profile

FY23 total expenses growth within guidance, reiterating FY24

FY23 total expense growth:

- FY23 total expense growth of 12.3% driven by increased spend in 2H23 driven by CHES related review and associated costs and CHES replacement solution design costs of \$13.3m.
- CHES Replacement Partnership Program (up to \$70m) classified as significant item with \$32.8m recognised in FY23
 - \$15.0m in rebates
 - \$17.8m from development incentive pool with balance in future periods

Reiterating FY24 total expense growth guidance:

- FY24 total expense growth guidance of 12-15%¹ supporting the reset horizon of five year strategy, ongoing CHES-related reviews and associated costs
- Expense management review underway to reduce expense growth rate in FY25. Focus on:
 - Workforce mix
 - Process simplification and automation
 - Strategic procurement
 - Equity investment portfolio review

Capital expenditure profile

Primarily driven by technology modernisation roadmap

- Capital expenditure profile over past few years has been driven by CHES replacement as well as technology and regulatory capability uplift
- FY23 capital expenditure of \$98.7 million

Reiterating FY24 guidance

- FY24 capital expenditure guidance of \$110 - \$140 million supporting technology modernisation, regulatory and risk plans
- Capital expenditure expected to remain around FY24 levels for the medium term to support technology modernisation
