*GST exclusive prices are quoted in the Schedule of Fees applicable to Clearing, Settlement and Issuer Administration Services. Usually Clearing, Settlement and Issuer Administration In certain situations, an otherwise taxable supply may be exempt from GST (for example, exports). However, ASX anticipates that Clearing, Settlement and Issuer Administration Services purposes of GST and accordingly, GST inclusive prices will be charged for these services.

Clearing, Settlement and Issuer Administration Services

ASX Clear Pty Limited (ASX Clear) and ASX Settlement Pty Limited (ASX Settlement) are wholly owned subsidiaries of ASX Limited (ASX) and are responsible for the provision of clearing and settlement and issuer administration services to ASX Participants and Approved Market Operators.

Fees are invoiced by ASX Operations Pty Limited (ASX Operations) on behalf of ASX Clear and ASX Settlement. Invoices are issued monthly in arrears.

The Derivatives Clearing System (DCS) is used by ASX Clear to clear and settle derivatives products such as exchange traded options and futures.

The Clearing House Electronic Sub-register System (CHES) is used by ASX Settlement to settle cash market products such as equities, interest rate products, warrants and exchange traded funds.

Cash Market Clearing Fees

This schedule can be found at ASX's Code of Practice website for cash equities clearing and settlement: <http://www.asx.com.au/cs/>

ASX Clear is the central counterparty for products traded on ASX and other Approved Market Operators. As the central counterparty, ASX Clear becomes the seller to every buyer and the buyer to every seller making it liable for completing all cleared transactions on the relevant market. This occurs through a contractual process known as novation, in accordance with operating rules of ASX Clear.

Following execution, ASX Clear sends a 164 CHES message to the Buyer Clearing Participant confirming the novated trade. The 164 message notifies each party of the cleared trade details and the settlement date. A Transaction Clearing Fee is charged for Equities, Warrants, Structured Products and Interest Rate Securities.

Where the Buyer Clearing Participant and the Seller Clearing Participant are the same entity, ASX Clear does not novate the trade and the 164 CHES message is for information only. The 164 message notifies the Clearing Participant of the trade details and the settlement date. A crossing Registration Fee is charged.

ASX Clear provides these services to the market and charges the fees detailed within this fee schedule.

Cash Market Settlement Fees

This schedule can be found at ASX's Code of Practice website for cash equities clearing and settlement: <http://www.asx.com.au/cs/>

The Clearing House Electronic Sub-register System (CHES) is used by ASX Settlement to settle cash market products such as equities, interest rate products, warrants and exchange traded funds for products traded on ASX and other Approved Market Operators. ASX Settlement charges participants for holdings transfers and Delivery versus Payment (DvP) settlement to meet novated obligations between the participant and ASX Clear and non-novated obligations directly between participants. Transactions include:

- DvP Settlement (101 message) where each participant independently notifies CHES of settlement details which are then matched by the system. Instructions can include DvP, delivery without payment, miscellaneous payments. Refer Product code 04900005 - \$1.30 per request.
 - Batch settlement (156 Message, as generated by a 164, 134 or 101 message) for market settlement of DvP obligations (netted and bilateral) via CHES settlement batch. Refer Product code 04900024 - \$0.30 per request. The charge for this service excludes free of payment 156 messages.
- ASX Settlement provides these services to the market and charges the fees detailed within this Fee Schedule.

Cash Market Clearing and Settlement Revenue Sharing Scheme

ASX operates a cash market clearing and settlement revenue sharing scheme, which operates on the following principles:

- All cash market clearing and settlement revenue earned by ASX above an annual growth threshold will be shared 50/50 between ASX and its cash market clearing and settlement participants.

- The annual growth threshold will be applied to the total ASX cash market clearing and settlement revenue. No individual participant growth thresholds are required.
- All participants are eligible to participate in the schemes.
- The total amount to be shared with participants will be distributed proportionate to each individual customer's revenue contribution.
- All payments will be paid annually in arrears.
- The scheme will operate annually.
- The annual growth thresholds will be reviewed periodically and advised to participants before commencement of the next financial year. ASX's calculations will be final.
